

Discover **AccessEngineering's** Essential Manufacturing Resources

AccessEngineering is a world-class online engineering reference tool brought to you by ASME and McGraw-Hill Education

- **Free unlimited** access exclusively for ASME members
- **Dynamic features** include calculators, interactive graphs, downloadable tables, videos, tutorials and more
- **Over 675 titles** covering every engineering discipline, with **47 titles** on manufacturing and related technologies

A few examples of manufacturing/process related titles

Design for Manufacturability Handbook, Second Edition. From raw materials ... to machining and casting ... to assembly and finishing, this classic guide will introduce you to the principles and procedures for developing high-quality products for the lowest possible cost.

Working Guide to Process Equipment, Fourth Edition. Applicable to a broad range of technicians and industries and fully updated throughout, this guide explains how to diagnose, troubleshoot, and correct problems with chemical and petroleum refining process equipment.

Maynard's Industrial Engineering Handbook, Fifth Edition. This is the 155-chapter, 2,000+ page pacesetter of the industrial engineering field – it's nothing less than the most in-depth, hands-on reference available for manufacturing engineers.

Manufacturing Engineering Handbook, Second Edition. This revised guide on traditional, advanced, and emerging manufacturing engineering technologies, principles, and applications shows how to optimize all aspects of the global manufacturing process.
