1. Opening of Meeting

- 1.1 Call to Order and Introduction to ASME President: On June 6, 2023, a meeting of the FY24 Board of Governors of the American Society of Mechanical Engineers was held at The Chase Park Plaza Royal

Sonesta in St. Louis, Missouri and simultaneously via the Zoom application. A quorum was present, and after an introduction by immediate past president Karen Ohland, the meeting was called to order by President Kurfess at 3:00 PM CDT.

- 1.2 Adoption of the Agenda: The Board voted to adopt the agenda as circulated on May 22, 2023.
- 1.3 President's Remarks: President Kurfess began by stating that it is an honor to sit and speak as the new President of ASME. A few of the goals during his presidency going forward will be about the continuation of the ongoing programs and transformations; membership engagement--particularly at the student level; articulating ASME's value proposition to the membership; and working towards strengthening and increasing ASME's impact on the nation and the world. President Kurfess' vision is to continue to train and engage the next generation of engineers. He is committed to ASME's mission of advancing engineering for the benefit of humanity and making it the premier resource for the engineering community globally. He asked everyone to reach out to him personally with questions or concerns regarding the Society.

President Kurfess shared his favorite quote from philosopher Eric Hoffer, "In times of change, learners inherit the Earth while the learned find themselves beautifully equipped with a world that no longer exists." ASME will help shape that future world for the betterment of humanity.

- 1.4 Executive Director/CEO's Remarks: Mr. Costabile began by congratulating ASME's new President, Thomas Kurfess, and thanked all for joining the first meeting of the FY24 Board. He remarked that the new process for selecting the president was interesting and an approach utilized by many high performing boards.

Mr. Costabile welcomed and congratulated Jennifer Jewers-Bowlin as the new SVP Elect for SECD, Nicole Salloum as the new BOG ECLIPSE intern, Nicole Kaufman-Dyess, Janis Terpenney, William King and Dan Donahoe as the new Governor Nominees, and Tom Vogan as the new SVP for S&C.

FY24 is shaping up to be a great year. There have been some aggressive conversations on goals and objectives for the FY24/25 business plan. ASME will continue to emphasize DEI, Digital Transformation, the Customer Experience, Culture and Workforce Transformation, Portfolio Development and Management, and Finance and Business Acumen, the pillars that we will hear about across all Board meetings. The goal is to foster a more integrated approach of developing ASME's products and services across the enterprise level optimizing a customer-centric focus on the global community.

In conversations with several C Suite executives, the consensus is that in June the U.S. economy has started to flatten out, inflation will slowly subside, and businesses will begin to show signs of growth. Hiring qualified labor and the costs to operate remain a major concern. Working from home has changed the global business world, not to mention the effects of the global real estate market.

A plan has commenced to reshape, reposition, and grow ASME's international footprint. It includes restructuring the China office and establishing a presence in Singapore. We also plan to continue the expansion of the India office to support local efforts as well as their support here in the U.S. Further, continue conversations with fellow societies in Europe and Latin American to increase

ASME’s presence. John Delli Venneri continues to lead the campaign in Open Access and IBR. With the change of administration, we must have a more aggressive approach on that issue.

Mr. Costabile concluded by briefly going over today’s agenda and by stating that we will continue to utilize the Board Information Sessions to communicate and allow for more socialization of ideas and concepts.
