## CHANGING THE TITLE ON YOUR PAPER

When a paper is submitted, we will follow the title that is listed on the final .pdf if it is changed during the review process. To change the title of your paper, you will need to contact [copyright@asme.org](mailto:copyright@asme.org) for permission to change a paper title.

After the system has been opened, go to your completed submission, and click "edit".

Go to "Authors" link at the top of the page.

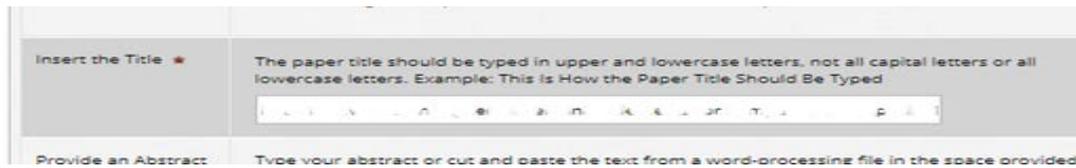

[Submitter Information](#) → [Abstract Submission](#) → **Authors**

If it is not selected already select the "General" tab.

Scroll down to "Insert the Title" to make any needed changes to the title.

Insert the Title \*

The paper title should be typed in upper and lowercase letters, not all capital letters or all lowercase letters. Example: This is How the Paper Title Should Be Typed

Provide an Abstract: Type your abstract or cut and paste the text from a word-processing file in the space provided

After you've made the needed updates, click "save"
